COLLABORATIVE PROJECTS FOR THE MINING INDUSTRY

THE POWER OF COLLABORATION

COLLABORATIVE

MISA GROUP
MINING EXCELLENCE POLE

legroupemisa.com

The Alliance pillar of the **MISA Group** is a catalyst for collaborative innovation within the mining industry. This pillar brings together key players in industrial research, including universities, research centers, the mining and exploration industries, equipment suppliers, integrators and mineral industry experts.

Alliance Services

NETWORKING

Facilitating the integration of various partners based on a shared, coherent vision.

PROJECT ESTIMATE

A project estimate that ensures planning, implementation and project control

COORDINATION

Coordination management of various players to ensure smooth and efficient project implementation.

FINANCIAL MANAGEMENT

Supervision of partners on the basis of a shared vision, planning, implementation, and to ensure smooth, equitable and coherent distribution of resources that enhances the value of project resources.

Benefits

SHARED VISION

Implement collaborative projects aligned with mining industry priorities.

STRATEGIC PARTNERSHIP

The MISA Group mobilizes experts to contribute scientific and technological expertise based on the specific requirements of the project.

BEST PRACTICES

Collaborative projects enable advances in knowledge and the creation of proofs of concept that advance sustainable practices.

The Alliance's collaborative project portfolio is also included in the programming of the MISA Group's Expert Networks, to ensure the circulation of results.

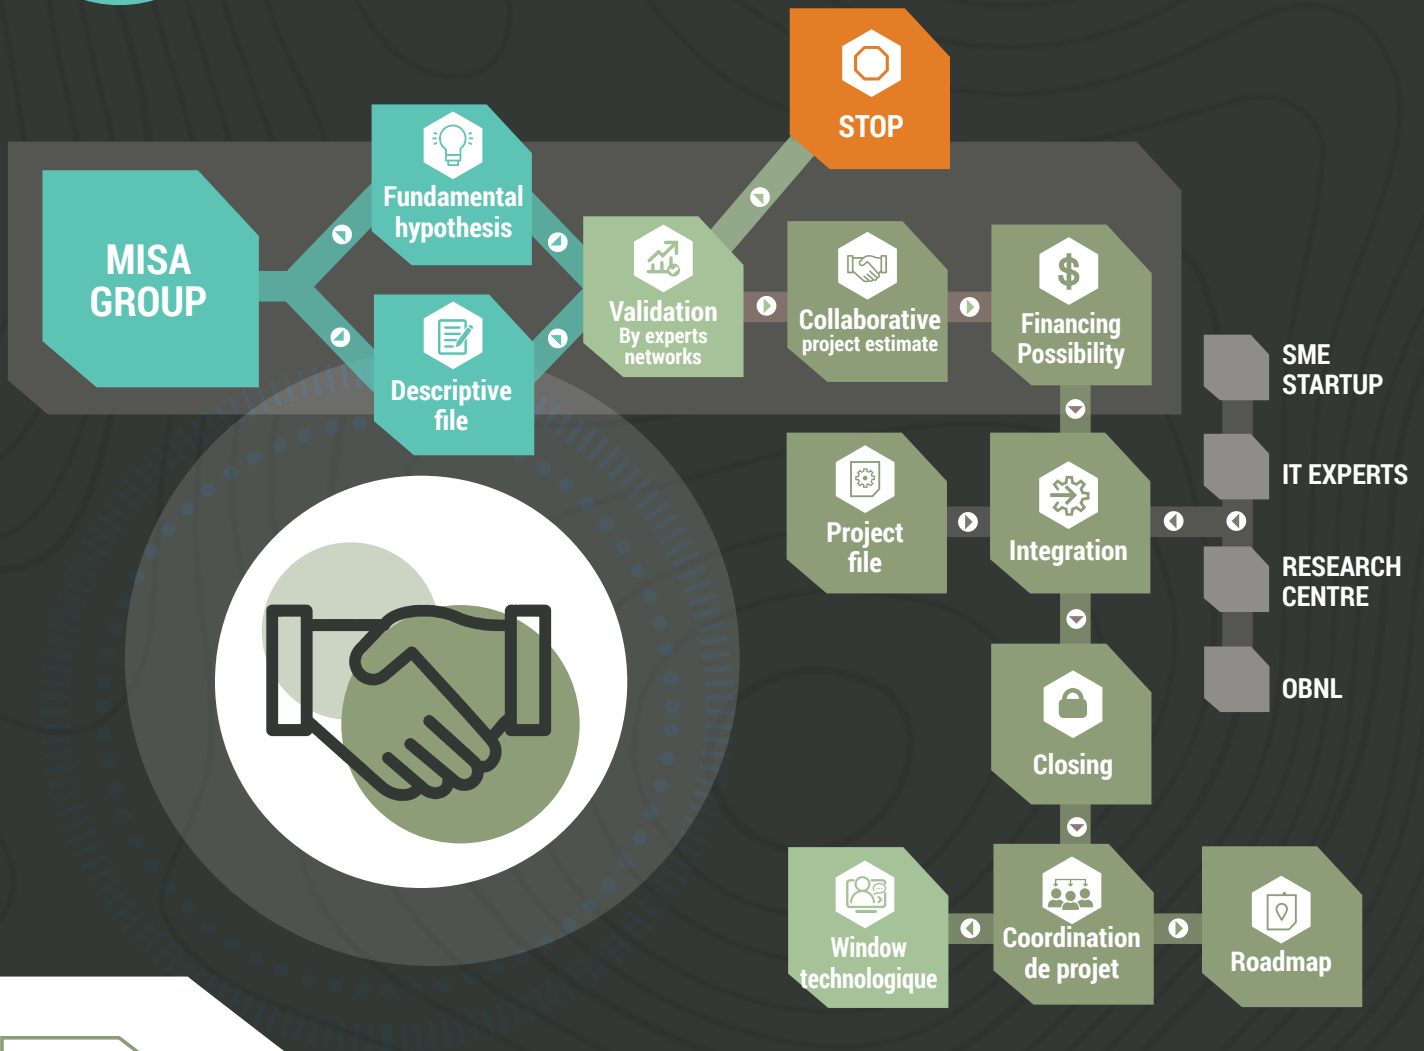

Contact us to unleash the full potential of your collaborative project.

Your critical pathway
